

## ORAL HISTORY INTERVIEW SELECTIONS

The Slate Belt Heritage Center began the Oral History Project several years ago in order to preserve the historic life stories of our area's seniors. The interviews are conducted with seniors, who have a wealth of history to share with future generations. All of the interviews are on file at the Center on DVDs or in the form of written transcripts. The information contained in these interviews is the greatest original source documentation that a researcher can find. Interviews will continue to be recorded and updated at the Center.

NAME/DATE OF INTERVIEW	TOPICS
